

	Adani Total Gas Ltd (ATGL) Zero Waste to Landfill Policy		Version	Release Ver 1.0
			Issue Date	
			Effective Date	
	<i>This version supersedes all previous versions with a lesser version number</i>			

Waste is critical to both mitigating and adapting to the effects of climate change. We at ATGL also consider waste as a crucial and its generation has one of the adverse key impacts for sustainable economic prosperity of our businesses.

As part of our sustainability goals, we are committed to zero waste to landfill in order to ensure that we play our role in the circular economy and ensure that resources are not wasted through the creation of needless waste

ATGL will demonstrate a commitment to the following objectives:

- Maintain valid authorization and legal compliance of waste related applicable laws and regulations through progressive management plan.
- Segregation of waste through effective and economically viable management systems.
- we have in place systems to segregate all waste and recycle 100% of our waste with a strong external recycler network for recycling other waste types.
- Ensure that waste generated through data collection, minimization of waste generation it's & decontamination based on cleaner production & circular economy approach.
- Develop and implement waste strategies for the business and its value chain through an effective engagement with stakeholders to increase awareness.
- Measure, monitor, and review the performance related to waste of the organization in accordance with this policy at regular intervals and undertake audit (internal/ external) of the performance before communicating to relevant stakeholders.

Responsible and sustainable way of disposal is necessary for improving the sustainability performance of the ATGL. All stakeholders of the ATGL will endeavour to be committed to the fulfilment of the objectives outlined in this policy.

The policy shall be reviewed periodically for its appropriateness and updated as necessary.

Policy Approval:

The version of this policy was placed before the Board-level ESG Committee (CRC) at its meeting held on 17th October 2025 and reviewed/approved thereat.
